FHCACA Conference

In a year that so far has seen unprecedented challenges for all, and so many changes to life as we know it, the Executive Board of FHCACA have come to the difficult decision to cancel the 2020 Annual Conference, scheduled for July 19 - 22 in Orlando.

FHCACA does value the opportunity for our members to meet for education and network each year, however with travel and gathering a large group together does not seem a wise decision at this time, and certainly not a priority for our members considering all that is going on in everyone's personal and professional lives.

Even though 2020 Conference is being cancelled, FHCACA remains committed to exploring options for creating a virtual event that can provide not only the education that is so much a part of our mission, but also opportunities for networking.

To all, we will be sharing more about the direction FHCACA will take in 2020 and we are planning for 2021,

We are in this together - and together; We are *Activities Proud* and we here to help you in your goals in *Helping Residents Live Life*, our mission!

I am so enormously proud of our profession, our Association with its long history of advocacy for the residents/patients/clients we serve.

Thank You, for your commitment to FHCACA, your profession!

I am honored to serve as President of FHCACA.

Please stay safe and healthy,

Activities Proud,

Cathy Richards, ADC

FHCACA State President
